

Enabling cities to adapt to the changes in traffic flow and curb-usage caused by the new wave of mobility.

Jordan Justus // CEO

Prior to founding Automotus, Jordan gained deep sales and finance experience with a number of venture-backed startups.

Harris Lummis // CTO

Harris worked in full-stack development for industry-leading companies IBM and Edmunds before founding Automotus.

Company Information

Automotus empowers cities to better understand and manage their shifting mobility landscape using video analytics -- providing critical insights and workflow automations.
